Mark Sutton wrote the lighting master plan and designed the lighting for the public areas of the London 2012 Olympic Park for which he was appointed a London Legacy Ambassador for lighting. He also lit the Crown Jewels in the Tower of London for The Queen, the Titanic building in Belfast and the National Museums of Oman, Ireland and Scotland. He designs lighting for retail, residential, commercial, historic, museum, hotel and leisure projects. Mark believes the future of good lighting design lies in marrying sustainability to the needs and perceptions of the people using the spaces.

- **arch. Habibeh MADJDABADI** - Owner & principal Architect, Habibeh Madjdabadi Architecture office. She established her design office in 2000 after winning first prize in a design competition for restoring historical buildings in Iran. She has received several awards and recognitions among which shortlisted at “Aga Khan Award 2016 and “Worldwide Brick Award 2014” and “MEMAR Award 2014” for “House of 40 knots” and “Chicago Award 2014” for “MELLAT Bank’s” cooper façade. 3rd Place – MEMAR Award 2014 / National.
- **Paolo Brescia** / Open Building Research (OBR), IT

In 2000 Paolo Brescia and Tommaso Principi established the collective Open Building Research (OBR) to investigate new ways of contemporary living and creating a design network among Milan, London and Mumbai. After working with Renzo Piano, Paolo and Tommaso have oriented the research of OBR towards the integration artifice-nature; to create sensitive architecture in perpetual change, stimulating the interaction between man and environment, promoting the sense of community and the individual identities. OBR cooperates with different universities, such as Accademia di Architettura di Mendrisio, Aalto University, Academy of Architecture of Mumbai and Mimar Sinan Fine Art University. The projects of the studio have been recognized with the AR Award for Emerging Architecture at RIBA, the honourable mention for the Medaglia d’Oro all’Architettura Italiana, the WAN Residential Award, the Building Healthcare Award, the Inarch Award for Italian Architecture and the American Architecture Prize in New York, among others.
- **Përparim RAMA**, CEO and Founding Director of 4M GROUP, is an award-winning Architect and Conceptual Artist. His distinctly integrated approach and passion for architecture has been presented in numerous media publications: London Building Design Magazine, BBC, CNN, Bloomberg, RAI, The Times Newspaper, The Western Australian and his project works are visible in more than 20 countries around the globe. Rama has won multiple awards with 4M GROUP and personally.

About SHARE

The SHARE Forum's spirit resides in the idea of connecting people through architecture, sharing concepts and initiatives in Central and Eastern Europe in order to bring architecture to a more social sensitive level. Arch. Ian Ritchie- from Ian Ritchie Architects and SHARE Society Fellow sees SHARE as "an intellectual, emotional exchange of creative people", while Sir Philippe Samyn – founding partner of Samyn and Partners / SHARE Society Fellow endorses the same idea of a "long awaited" established architecture network which has "an intellectual purity, an intellectual freshness" and which does not take into account the age of participants, but concentrates its attention to spreading the knowledge.

The SHARE FORUM brings together each year hundreds of practicing architects and contractors from Europe, Asia and the United States of America, becoming one of the most important networking platforms for the construction-related fields in Central and Eastern Europe. Its annual editions are a constant relevant presence in Poland, Hungary, Romania, Bulgaria, Serbia, Albania, FYROM, Kosovo and Montenegro.

SHARE Athens 2018 is organized by PROEvent Association and ABplus Events- a Professional Trade Events and Congress Organizer. Our more than 20 years experience in the Central and Eastern European market positions our events as one of the most effective international forums in the region, a source of constantly updated information, supporting the continuous training of specialists and the promotion of young talents.
